## **IMPORTANT SAFEGUARDS**

When using appliances, basic safety precautions should always be followed, including the following:

1. Read all the instructions before use.
2. Close supervision is necessary when any appliance is used, especially around children.
3. If the unit should require service, please bring it to the nearest authorized service facility for examination, repair or adjustment.
4. The use of accessories and/or attachments not recommended by the appliance manufacturer may cause injury or damage to the appliance, and may void your warranty.
5. Do not place appliance on or near a heated surface.
6. Do not use appliance other than for its intended use.
7. **SAVE THESE INSTRUCTIONS FOR LATER USE!**

## **INTRODUCTION**

The ambient display rack is designed to offer a protected display area for products that do not require heating or cooling. The display is constructed of safety glass and a laminated base. Three tiers are available for the display of your product, which offer a 360° view, and two serving doors. If self-service is not desired, you may reverse one knob to prevent opening of the customer side door.

## INSTALLATION

The display may be placed on a countertop, wherever convenient. **DO NOT** place the unit in a hot or damp area, or near heat or steam sources.

### *Cleaning*

Cleaning is very important in maintaining a safe and sanitary machine. Use a cloth dampened slightly with a soap and water mixture to clean all exterior and interior surfaces. Use a clean lint-free cloth to remove the excess water or soap.

**DO NOT use an abrasive sponge on exterior or interior surfaces**

**DO NOT wash the display under running water**

**DO NOT spray the exterior glass with any cleaner, as it may contact products inside**

**DO NOT allow moisture to sit on the laminated surface**

You should inspect all parts on a regular basis to ensure that all is in proper working order. If a part is damaged, have the unit repaired by an authorized service agency prior to returning the unit to operation. If you have trouble locating a service agency in your area, please consult our website at <http://www.equipex.com/>, or call us at 1-800-649-7885 and ask for customer service.

These models must be taken to a service facility; in-store service is not covered.
